GÁBOR DÉNES FŐISKOLA

Blended Learning at DGAU

Distance learning with blended learning:
with the reasonable and planned coordination of different
forms of knowledge transfer

ILIAS:

- Bundles internet based distance learning services,
- Is an infrastructure to processing eLearning materials...
- ... and online communication

GÁBOR DÉNES FŐISKOLA

Three basic elements

- Printed learning material prepared for distance education (study books, notes);
- Personal consultation and practice;
- eLearning services.

+

+

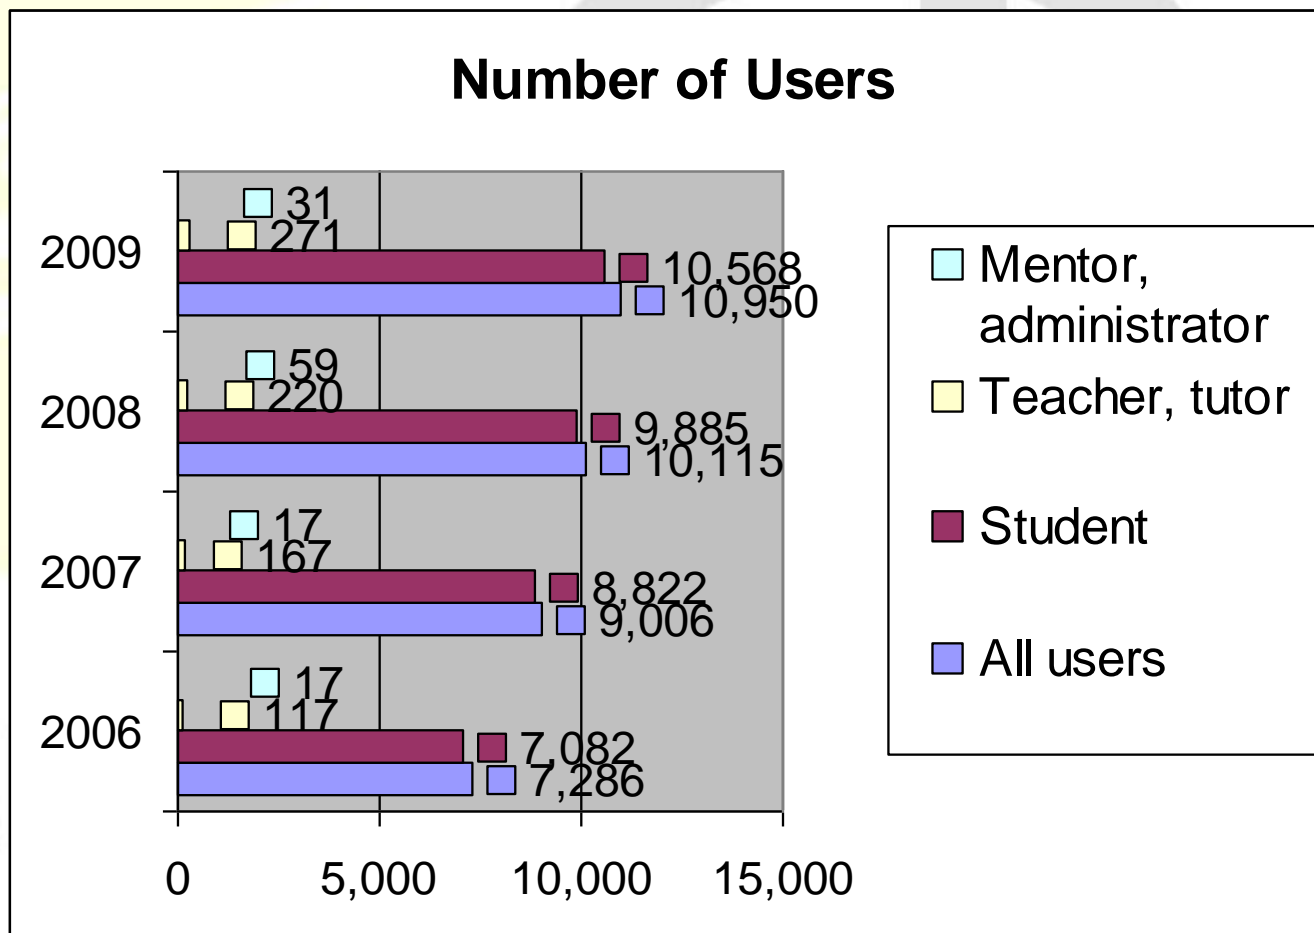

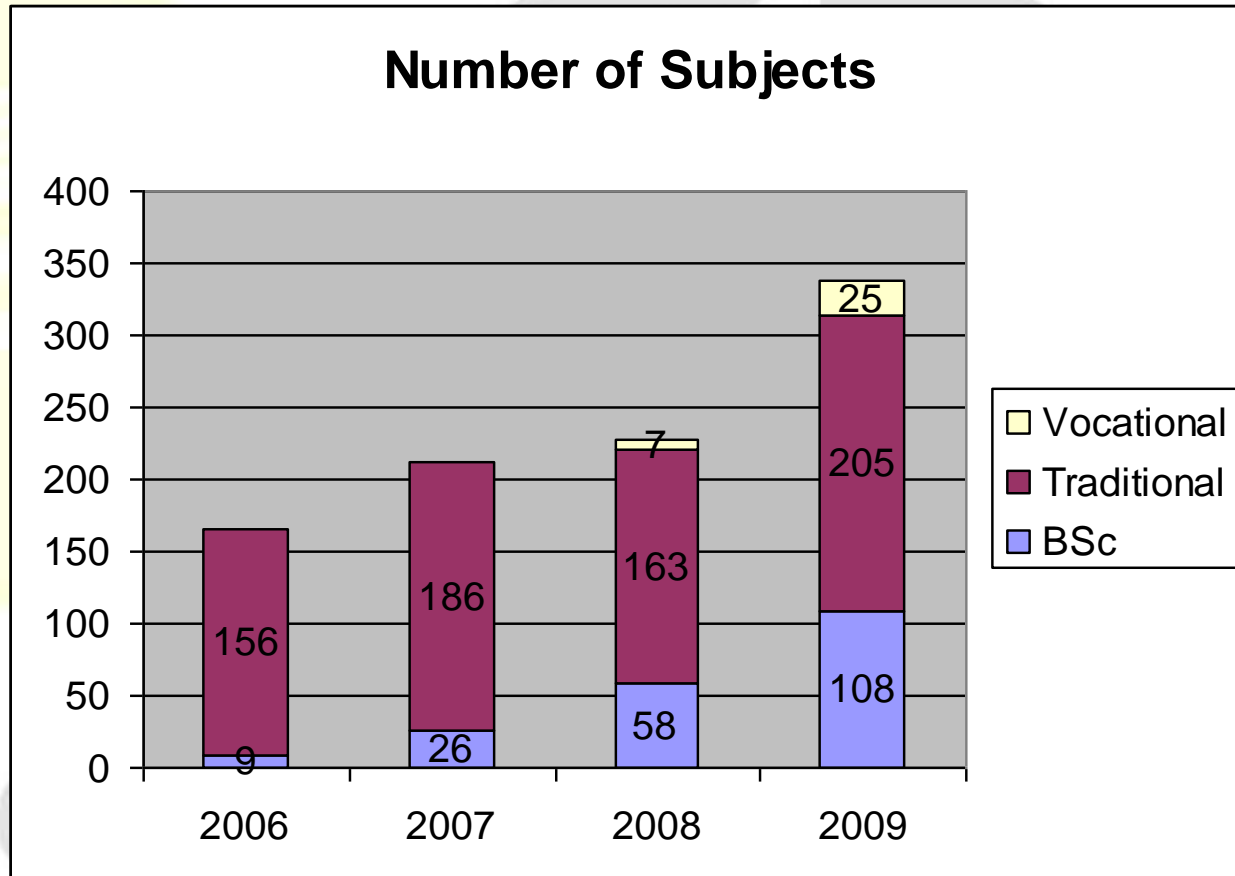

Milestones of introducing ILIAS

- 2002, 2003: research and development, e-learning strategy, pilot applications, experiments,
- 2004/2005 academic year: content with background services
- 2005/2006 academic year: experimental e-learning groups building on ILIAS services
- 2006/2007 academic year: BSc distance education and correspondence training organically builds on ILIAS services
- 2007/2008-2009/2010 academic years: all BSc academic years are connected to ILIAS, beginning of offering services for Higher Vocational Education courses

Some Statistics

Some Statistics
